

# TUPPENCE IS FOR SALE

22' Baker Built BLUEBIRD (Baker was one of Australia's best boat builders)

Tuppence is mainly fibreglass with some timberwork combing and while it's an old boat is still very safe and has been twilight raced successfully at DSC over many years.

I have loved & owned this boat since 1988 and have since upgraded to a larger boat

It's a day sailor and therefore no frills, has a toilet but to my knowledge this has never been used by myself or crew

Plenty of gear and spare sails are available

I would like to see Tuppence sailed in Drummoyne Club races, a mooring may be available and Tuppence is presently located to the left of the club, approx 100 metres away

Sorry no outboard, but I may be able to help locate a second hand one at a reasonable price for the buyer.

I think she is very reasonably priced at **\$2,500 or best offer**
